#### **General Information:**

- ✓ Scope of work entails the removal of up to 159 diseased Ash Trees from Public right-of-ways within the City of Rolfe.
- ✓ The trees generally range from 13 to 32 DBH (diameter at breast height), and have been marked with a double orange ring around the trunk.
- ✓ The City is without a facility to handle, store or dispose the volume of trees and stump materials to be removed.
- ✓ Due to potential budget constraints, two bid proposals are requested as below. Each shall include a description and location of the bidder's facility for storage and disposal of felled trees, and the method of disposal and/or repurpose of the tree material.
  1. One bid proposal shall include the cost for removing the trees at four (4) inches above ground level - leaving a flatly cut stump, cleaning and hauling away all debris to the winning bidder's facility for proper disposal methods, and reasonable repair of any collateral damage made to adjacent property or right of ways.
  2. The second bid proposal shall include the costs of grinding related stumps below ground level, reasonable repair of any collateral damage made to adjacent property or right of ways, and cleaning hauling away all associated debris, also to the winning bidder's facility for proper disposal methods.
- ✓ Backfill of dirt and re-seeding for each stump removed, will not be required.

## CITY OF ROLFE

- ✓ The number of trees and stumps may decrease depending upon the bid award prices per the DBH bid, but bid award will be considered on the trees listed and the total bid for this project.
